

Master Class Smart City - Shaping Our Future

online

Helia Burgunder is a C-Level executive bringing more than 27 years of experience with leading corporations in the ICT industry, in Switzerland and Europe, successfully spearheading cross-functional operations in large corporations and start-ups, both in the B2B and B2C markets.

She is a passionate and inspirational leader who built an excellent track-record in Digital Transformation, Customer Service excellence, Sales & Retail, and Change Management. Driven by the fundamental values of integrity, innovation, and authenticity, Helia received the Digital Female Leader Award 2020 amongst 800 top digital women in Europe and stands for Diversity & Inclusion and Industry 4.0.

Helia Burgunder earned an Executive MBA from the international institute of management in technology (iimt) at the University of Fribourg, and a Master's Degree in Computer Science & Electrical Engineering from the University of Lisbon. She currently serves on several Boards of Directors.
