

Business Ethics

The course deals with ethical challenges corporations are facing: In their societal context, they are expected to manage the social and environmental side-effects of their supply chains and internally, they are confronted with the risk of illegal and immoral behavior of their employees and leaders.

Business Ethics - 24th - 25th March 2022

- Managing the human risk and avoiding unethical behavior in organizations
- Analysing the ecological crisis and managing the grand transition
- Understanding the changing role of business in society
- Leveraging the power of values and creating a climate of integrity
