

PhD position in technology and innovation management (100%)

Job information:

The international institute of management in technology (iimt) at the University of Fribourg is a premier Swiss centre of excellence for management in technology. Dedicated to delivering outstanding education and research, we equip future leaders and entrepreneurs with the skills to effectively lead organisations. Our executive business education programmes (EMBA, DAS, CAS) blend intellectual rigor with a curriculum rooted in real-world application.

The international institute of management in technology (iimt) at the University of Fribourg is inviting

Starting date:	January 1, 2025, or by agreement
Contract duration:	The initial contract is 1 year. The contract can be renewed for 2 x 2 years. The maximum funding period is 5 years
Location:	University of Fribourg, Faculty of Management, Economics and Social Sciences, Bd de Pérolles 90, CH-1700 Fribourg, Switzerland
Type of position:	This is a fully funded position (100 percent)
Salary:	According to legal stipulations
Supervisor:	Prof. Dr. Stephan Nüesch

Job description:

- As a PHD student, you are required to be accepted into and enrolled in the Doctoral Program at the Faculty of Management, Economics, and Social Sciences at the University of Fribourg. Accordingly, 50% of your time will be dedicated to completing your doctoral studies and thesis. In writing your thesis, you will be coached by your supervisor Prof. Dr. Stephan Nüesch.
- As a member of the iimt team, you will mentor both Master and executive education students. Your responsibilities will include (co-)teaching in lectures, guiding students through their Master's, EMBA, or CAS thesis, and contributing to an exceptional learning environment by assisting with administrative tasks.

Required profile for the PhD position:

We are seeking candidates who possess the following qualifications:

- A passion for teaching and research
- Fluent in English and proficient in French and/or German, with good passive comprehension of the other language
- A master's degree in a social science discipline (e.g., business administration, management, economics, psychology, communication, business informatics). Candidates are welcome to apply early, which may even be several months prior to their graduation
- An interest in one of the following areas: Digital business models, open innovation and crowdsourcing, top management teams and digital innovation, technology management, strategic human resource management
- Expertise in empirical research methods is desirable

Please send your letter of motivation (cover letter), curriculum vitae, the (intermediate) grade report of your MA and BA degree and a copy of your MA thesis or other research-oriented output (e.g. BA thesis, seminar papers, etc.) in one pdf-document to stephan.nueesch@unifr.ch. Deadline is November 24, 2024.

For further information please contact by e-mail Prof. Stephan Nüesch (stephan.nueesch@unifr.ch).
